

Services:

- **Industrial property: Applications, Transactions and Monitoring.**

- Preliminary reports, investigations, legal and/or register situations:

Preliminary reports, investigations, legal and/or register situations of domestic or foreign expedients. We inform our clients in a short space of time of the registration possibilities of their applications or of the situation of the ones which have already been carried out.

- Trade marks, trade names and establishment signs:

We ensure our clients a constant monitoring of their trade marks, trade names and establishment signs, applications and transactions until their resolution is reached and, of course, during all time they remain in force.

These matters can be handled both in Spain and abroad, since we have correspondents all over the world.

- European Community trade marks:

You can apply for and obtain a trademark for all the European Union territory, by means of a unique procedure. We will handle them as agents, before the Office of Harmonisation of the Internal Market (OHIM) with its seat in Alicante.

- International trade marks:

The term International trade mark covers more than 60 countries, our task being to choose the most advisable ones before the World-wide Industrial Property Organization (WIPO) of Geneva.

- Patents and Utility models:

We guarantee quickness, effectiveness, and confidentiality in all our Patents and Utility Models, studies of patentability, preliminary reports, preparation of memories and plans, technical translations, so that your ideas or transformations can reach a happy end.

These matters are handled both in Spain and abroad, thanks to the fact that we have correspondents all over the world.

- European Patent and Patent PCT:

European Patent and PCT (treaties which include most of the developed countries).

- Industrial Models and Designs:

By direct transactions in Spain, abroad or by means of the International Hague Treaty.

- **Intellectual Property**

- Counselling:

- We offer counselling in the matters concerning Intellectual Property..

-Certification:

- Certification of register before the Intellectual Property Office.

- Applications:

- Application of registration of literary, artistic or scientific works in the Intellectual Property Register.

- **Societies**

- Investigations:

- Investigations in the General Registry Of Societies on a concrete denomination.

- Application and obtaining of certification:

- Application and obtaining of Mercantile Register certification on registering denominations for the creation of a society.
